Course Prefix and Number: OCTA 204

Credit Hours: 3

Course Title: Mental Challenges to Occupation

Course Prerequisite: Enrollment in the OCTA program courses is limited to those students who have been selected and admitted to the professional phase of the program. Program courses are sequenced by semester and must be taken as a group each semester per program requirements and policies.

Textbooks/ Learning Resources:

Course Description:
This course will introduce the history and theories, contexts, and interactions with individuals that psychosocial issues that alter an individual’s performance in areas of occupation (ADL, IADL, education, play, work, leisure, and social participation). It will explore treatment approaches and techniques for the client with psychosocial dysfunction to be performed by the Occupational Therapy Assistant. Topics include role of the OTA, practice models, behavioral and life span issues, major DSM-5 diagnoses, contexts of intervention, symptoms, therapeutic use of self, safety, professional behaviors, communication skills (oral and written), group techniques and planning strategies for group intervention and group activities. Introduction of cultural diversities will be discussed. The evaluation process and appropriate assessments will be introduced.

Relationship to Curriculum Design:
This course is designed to provide a foundation of knowledge about the scope, theory, and approaches to practice occupational therapy for persons with psychosocial dysfunctional issues and the affect these challenges have on occupation. In addition, it is designed to provide the foundational knowledge and writing, critical thinking and psychomotor skills necessary for the OTA student to be able to design, develop, implement and lead various groups. Level I-A fieldwork is integrated throughout the course to enhance the comprehension and application of course content in a clinical setting, including but not limited to professionalism, affective skills, communication skills, observation skills, and clinical reasoning.

Learning Outcomes:

At the end of this course the student will be able to:
A. Demonstrate knowledge and understanding of DSM-5 diagnoses based on current evidence and psychosocial theory.

B. Apply models of occupational performance and psychosocial frames of reference to the treatment of psychiatric conditions.

C. Appreciate the historical development of occupational therapy in mental health in order to understand the role of the OT and OTA in various mental health settings;

D. Identify appropriate occupation based treatment approaches and strategies

E. Explain how socioeconomic, cultural, familial, lifestyle, cognitive, and sensorimotor factors influence and affect activities of daily living and occupational choices

F. Demonstrate appropriate and effective oral and written communication skills when interacting with and responding to symptoms and behaviors of patients, clients, family and caregivers.

G. Identify the cultural, social, psychological, physical and temporal factors that influence occupational therapy treatment in a variety of mental health settings

H. Demonstrate emerging group leadership skills as evidenced by designing and implementing a group protocol based on client factors, current research, frames of reference, and clinical reasoning skills

I. Articulate an understanding of personal, professional, ethical considerations that contribute to therapeutic use of self and cultural competency

J. Adapt interventions and therapeutic approach to meet the needs of individual clients

Course Objectives:

In order to achieve learning outcomes, students will:

1. Demonstrate knowledge and understanding of the concepts of human behavior (B.1.3.) (A,E)

2. Demonstrate knowledge and appreciation of the role of sociocultural, socioeconomic, and diversity factors and lifestyle choices in contemporary society (B.1.4.) (E,G)

3. Articulate knowledge of ethical/practical considerations and global social issues that affect the health and wellness needs of those who are experiencing or are at risk for social injustice, occupational deprivation, and disparity in the receipt of services. (B.1.5. & B.1.6) (I)

4. Articulate an understanding of the importance of the history and philosophical base of the profession of occupational therapy. (B.2.1.) (C)

5. Describe the meaning and dynamics of occupation and activity, including the interaction of areas of occupation, performance skills, performance patterns, activity demands, context(s) and environments, and client factors. (B.2.2.) (D)

6. Describe basic features of the psychosocial theories that underlie the practice of occupational therapy. (B.3.1.) (B)

7. Describe basic features and interventions of models of practice and frames of reference that are used in psychosocial occupational therapy. (B.2.11 & B.3.2.) (B)

8. Gather and share data for the purpose of screening and evaluation using assessments, skilled observations and interviews with the client. (B.4.1.) (F,H)

9. Assist with the development of occupation-based intervention plans and strategies (including goals and methods to achieve them) on the basis of the stated needs of the
client as well as data gathered during the evaluation process in collaboration with the
client and others. Intervention plans and strategies must be culturally relevant, reflective
of current occupational therapy practice, and based on available evidence. Interventions
in this course will address the following components:

- The occupational profile, including participation in activities that are meaningful and
  necessary for the client to carry out roles in home, work, and community environments.
- Client factors, including values, beliefs, spirituality, cognitive and mental functions
- Context (e.g., cultural, personal, temporal, virtual) and environment (e.g., physical,
  social).
- Performance skills, including motor and praxis skills, sensory–perceptual skills,
  emotional regulation skills, cognitive skills, and communication and social skills. (B.5.1.) (H)

10. Promote the use of appropriate home and community programming to support
    performance in the client’s natural environment and participation in all contexts relevant
    to the client. (B. 5.17.) (J)

11. Demonstrate an understanding of health literacy and the ability to educate and train the
    client, caregiver, and family and significant others to facilitate skills in areas of
    occupation as well as prevention, health maintenance, health promotion, and safety. (B. 5.18) (E, F)

12. Select and provide direct occupational therapy interventions and procedures to enhance
    safety, health and wellness, and performance in ADLs, IADLs, education, work, play, rest, sleep, leisure, and social participation. (B.5.2.) (D, H, J)

13. Implement group interventions based on principles of group development and group
    dynamics across the lifespan. (B.5.4) (H, J)

14. Demonstrate therapeutic use of self, including one’s personality, insights, perceptions,
    and judgments, as part of the therapeutic process in both individual and group interaction.
    (B.5.7.) (F)

15. Implement intervention strategies to remediate and/or compensate for cognitive and
    emotional regulation deficits that affect occupational performance. (B.5.8.) (H, J)

16. Grade and adapt the environment, tools, materials, occupations, and interventions to
    reflect the changing needs of the client and the sociocultural context. (B.5.23) (J)

Topical Outline

I. Group Leadership Skills
   a. Concepts
   b. Techniques
   c. Activities
   d. Design

II. Cultural Competency

III. Individual Client Skills
   a. Therapeutic Use of Self
   b. Cultural Considerations
   c. Interview Skills

IV. History of OT in Mental Health

V. Contexts of Mental Health Practice

VI. Theory
a. Psychological Theory  
b. Occupation-Based Models: MOHO  

VII. Assessment in Mental Health Practice  
a. DSM V  
b. Occupational Therapy Assessment & Documentation  

VIII. Intervention  
a. Instructional Design  
b. Treatment Planning & Documentation  
c. Safety and Practical Group Management  

IX. Psychiatric Disorders  
a. Psychosis  
b. Mood Disorders  
c. Anxiety Disorders  
d. Personality Disorders  
e. Substance Abuse  
f. Eating Disorders  

Course Grading  
The student’s grade for this course will be based on:  

<table>
<thead>
<tr>
<th></th>
<th>%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assignments</td>
<td>15</td>
</tr>
<tr>
<td>Exams</td>
<td>30</td>
</tr>
<tr>
<td>Interview Summary</td>
<td>15</td>
</tr>
<tr>
<td>Practice Group</td>
<td>10</td>
</tr>
<tr>
<td>VOH Group Protocol</td>
<td>30</td>
</tr>
<tr>
<td>and Reflection Paper</td>
<td></td>
</tr>
</tbody>
</table>

Instructional methods include presentation, small group activities, video presentation, role play, and Level I-A fieldwork in a variety of settings.

Course requirements: In order to receive a grade of “C” the student must earn 70% of the total possible points for the courses and achieve all of the course requirements listed below.

- Successful completion of fieldwork requirements- See Fieldwork addendum for specific objectives and assignments  
- Satisfactory completion of all course assignments (minimum score of 75%)

Student Expectations:  
a. Course faculty will determine if class absence is excused. Unexcused absences will result in a zero (0) for the exam, assignment, or class participation due on the date of absence.  
b. One tardy will be excused per semester. All other tardies will constitute a decrease of one percentage point each in final grade.
c. Make-up work or exams for excused absences will be given at the discretion and convenience of the instructor.
d. 5% will be deducted for each day an assignment is late.
e. All written work will be typed and produced according to the *APA Publication Manual, 6th edition* unless otherwise indicated in assignment directions.
f. *Active* participation during class time, community outings, fieldwork experiences, and other professional experiences is mandatory. Passive note taking and silent observation is not considered active participation.
g. Professional development is an integral part of becoming an Occupational Therapy Assistant. Students are expected to accept constructive criticism from faculty and peers and modify behavior accordingly.
h. **ALL** appointment requests with faculty must be made in writing via email.

**Course Grading Scale:**

- **A-** 90% or more of total possible points and meet all minimum course requirements
- **B-** 80% or more of total possible points and meet all minimum course requirements
- **C-** 70% or more of total possible points and meet all minimum course requirements
- **D-** 60% or more of total possible points and meet all minimum course requirements
- **F-** less than 60% of total possible points or failure to meet one or more of the minimum course requirements

**Lab competencies are scored differently than written exams. All mistakes result in a point deduction for grading purposes. However, failure to demonstrate fundamental competency, safety or professionalism in the execution of the skill as evaluated by the course instructor(s) will result in an immediate failing score. The student will then be required to re-test on the skill preceding fall/spring clinical practice experiences with the specific scheduling and format for such being at the discretion of the primary course instructor but the responsibility of the student. The student will be given up to two additional testing attempts to demonstrate competency. If unable to safely, competently and professionally execute the skill on subsequent attempts, the student will be given a failing grade for the course and will not continue in the clinical program. The remediation scores will not replace the first attempt test score.**

**Attendance Policy:** The college attendance policy, which is available at [http://www.bpcc.edu/catalog/current/academicpolicies.html](http://www.bpcc.edu/catalog/current/academicpolicies.html), allows that “more restrictive attendance requirements may apply to some specialized classes such as laboratory, activity, and clinical courses because of the nature of those courses.” The attendance policy of the OTA program is described in the OTA Clinical Handbook.

**Course Fees:** This course is accompanied with an additional non-refundable fee for supplemental materials, laboratory supplies, certification exams and/or clinical fees.
