STRATEGIC GOALS OF THE STUDENT TECHNOLOGY FEE PROGRAM:

Strategic Goal 1:
To provide students with access to, and training in, current state-of-the-art information/e-technology and discipline-specific equipment.

- **Objective 1.1:**
  To provide public access computers with up-to-date software as well as network and Internet connections for all students.
- **Objective 1.2:**
  To provide state-of-the-art multi-media classrooms using the most appropriate instructional technologies for specific classrooms.
- **Objective 1.3:**
  To ensure the instructional laboratories are equipped with the most current equipment appropriate for teaching and learning.
- **Objective 1.4:**
  To provide appropriate state-of-the-art technology to student services that directly support student life and learning.

Strategic Goal 2:
To enable students and teachers to make the best possible use of current or recycled technologies in support of learning and teaching.

- **Objective 2.1:**
  To provide non-credit instructional programs for students which allow them to fully utilize the information technology resources of the College.
- **Objective 2.2:**
  To enhance student learning and use of technology information resources by providing maintenance and support personnel. Personnel expenses may not exceed 25% of the annual technology budget. Personnel expenditures should focus on student employment except as needed for professional technical assistance.
- **Objective 2.3:**
  To provide a method for the reallocation of any items purchased with student technology fee funds.

Strategic Goal 3:
To reserve annually 15% of the Student Technology Fee to provide state-of-the-art technology.

- **Objective 3.1:**
  To establish an interest bearing account with the 15% reserve fund and any unspent funds.
- **Objective 3.2:**
  To allow for the annual review of funds collected, interest earned, and amount placed in reserve through semester reports and a fiscal year report.
